

## Nurse Call Bell [Call / Cancel Button (Transmitter)]

A call cancellation button is used to reset or confirm timely provision of medical care. A nurse presses the cancellation button to confirm that the call was answered.

### SPECIFICATION

Size:	74Wx46Lx11H (mm)
Weight:	28g
Color:	Snow White / Dark Black / Wine Brown
RF:	Transmitter (FSK Low Power Data Transmission Standard)
Freq:	434Mhz Band
Battery:	CR2032 Coin cell 2EA
Antenna:	PCB Antenna
Transmission Type:	Omnidirectional (360°)

### FEATURES

- Battery Life Time : about 2 years (based on 15call per day)
- Bell ID : Generated max. 16 million (by adopting TI CPU)
- Life Waterproof guarantee (by adopting Case integrated structure)
- Durability guarantee
- Stable Transmission guarantee(by adopting FSK Transmission)
- Using high-brightness 2 Red LED for device identification
- Reduction in current consumption through the battery-circuit control technology
- Improve wireless environment through the RF Transmission-circuit control technology
- Advanced Luxury Design : The classy, The cool, The luxury carefully, The most elegant, The best materials, The best performance.
- Connectable Fixed Receiver (SM3-33PC / SM3-61PC)
