

A cleaner solution for professional care.
The soft Vala[®] disposable range.

Reliable aids for professional nursing care.

Whether it's in the hospital, nursing home or at home, professional care requires the right care products. The updated Vala disposable range is perfectly suited to your requirements and with its large product selection has the right solution for you.

Vala disposable products are made of high quality materials. Not only do they possess the softness of textile products but they also ensure hygienic, professional care. This makes personal contact more pleasant and also ensures the comfort of those in need of care. As one-off products they are cost and time-efficient as well as being easy to dispose.

At a glance this means:

- Hygienic
- Gentle, high quality products
- Economical
- Easy disposal
- Protection for carers and those in need of care

The right solution for all nursing environments.

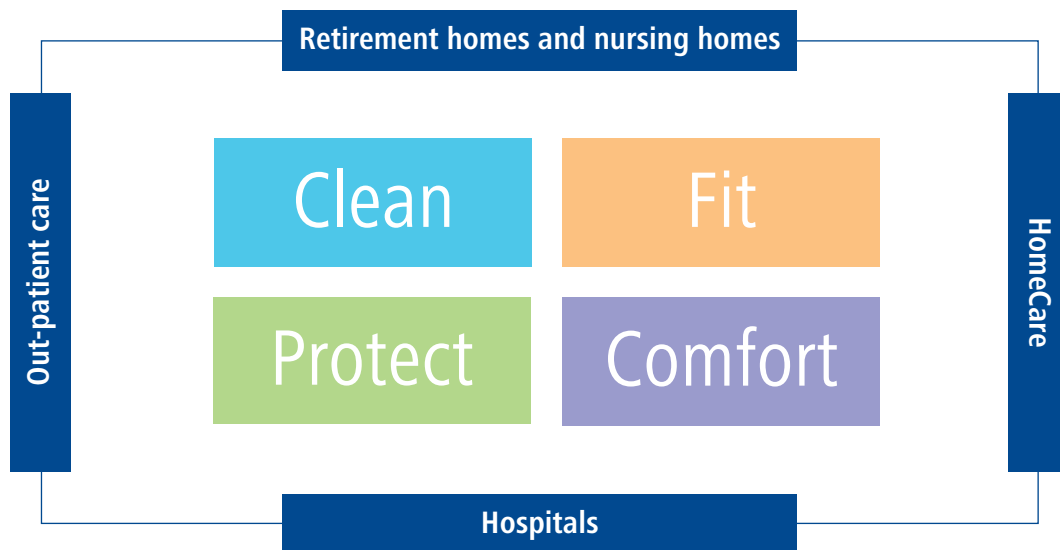

The Vala range is made up of four product groups, specially designed to meet specific requirements, and thereby offers the right solution for every situation.

■ Vala®Clean

Soft disposable wash gloves, wash-cloths and wipes suitable for professional washing of care home residents and patients.

■ Vala®Fit

Protective bibs for cleaner mealtimes. They protect clothes and bedding against spills.

■ Vala®Protect

Waterproof sheets protect patient bedding and examination couches against soiling and the spread of infection.

■ Vala®Comfort

Disposable products for hospitals and nursing homes where comfort is of great importance.

Clean

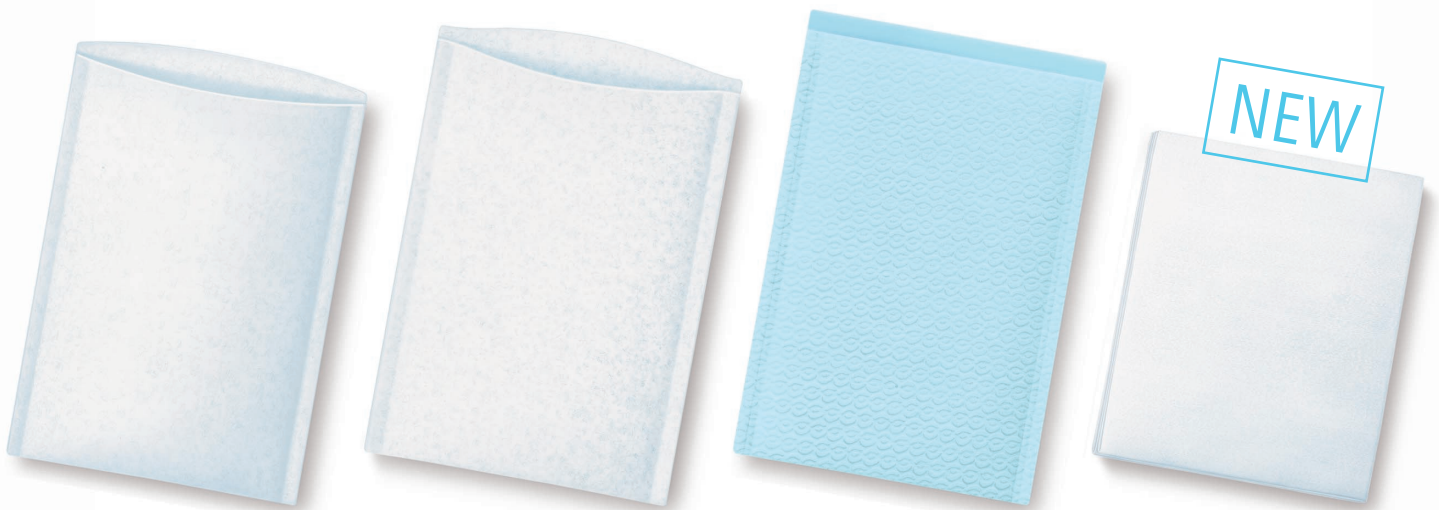

Vala®Clean

Tangibly softer for skin cleaning.

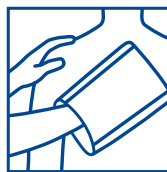

The carefully selected materials in the ValaClean range ensure professional body care. ValaClean wash gloves, washcloths and cleaning wipes are tangibly softer for cleaning mature skin.

As ValaClean products are intended for single use only they minimise germ transfer and allow you to work according to hygiene regulations. They are easily disposed and thereby entail no washing expenses.
